PROFILE

Technical Artist and Unity developer with 4+ years in a small production studio. I started at PRODUKTIA as a Technical Artist intern and became one of its main Unity developers, working between artists and engineers: HLSL and Shader Graph shaders, visual effects, 2D/3D animation, asset optimization pipelines and lighting. Most of what I shipped ran on hardware with tight budgets (standalone VR headsets, Android and iOS), where holding a stable frame rate is the core challenge.

EXPERIENCE

PRODUKTIA - Unity Developer / Programmer

Barcelona, Spain | Jan 2023 - Jul 2026

- Wrote custom underwater shaders and narrative VFX for [Nanoscope](#) (Shader Graph), integrating optimized 3D assets at a stable frame rate on Meta Quest.
- Optimized [GRAPAT de BTC](#), a multiplayer VR escape room played by 200+ students, to a stable 90 FPS on Pico 4.
- Ran a photogrammetry asset pipeline for [PompeuLab VR](#): cleaned and optimized 3D-scanned environments in Blender for real-time use; led the team.
- Shipped 15+ cross-platform Unity apps for Android, iOS and Meta Quest; profiled and optimized graphics performance on device.
- Created 2D and 3D animation, motion graphics, VFX and lighting setups in Blender and After Effects; built Unreal Engine virtual sets.

PRODUKTIA - Technical Artist Intern

Barcelona, Spain | Sep 2022 - Dec 2022

- Converted and optimized CAD 3D models into real-time game assets.

AIAmigo.io - Co-Founder & Full Stack Developer

Remote | Jun 2025 - Present

- Co-founded a B2B SaaS and browser extension; working remotely with Danish colleagues.

EMAiD - Game Development & Programming Professor

Barcelona, Spain | Feb 2025 - Sep 2025

- Taught Unity and C# game programming to 30+ higher-education students.

SELECTED PROJECTS

- [Red Button](#) - solo Unity/C# mobile game on Google Play; 1,000+ downloads, 100+ monthly players.
- [Multi-IDE Support for Unity](#) - open-source Unity editor package (C#).
- **Game jams** - [Ship the Sheep](#) (2D Unity, Aseprite), Global Game Jam 2023, 2024, 2025.

TECH ART SKILLS

Shaders: HLSL & Shader Graph

Particles & visual effects

Lighting & post-processing

2D & 3D animation

Asset pipelines & optimization

Profiling on mobile & VR hardware

Photogrammetry

Unity editor tooling (C#)

ENGINES & TOOLS

Unity, C#, HLSL, Shader Graph, Unreal Engine, Blender, After Effects, Aseprite, Premiere Pro, DaVinci Resolve

PLATFORMS

Android, iOS, Meta Quest, Pico 4

LANGUAGES

Spanish and Catalan: native

English: upper-intermediate

EDUCATION

Bachelor's Degree in Digital Media Design

UOC | 2024 - Present

Postgraduate Diploma in Game Development

UOC | 2024

Advanced Vocational Diploma in Video Game Design and Development

EMAiD | 2022

Intermediate Vocational Diploma in Plastic Arts and Design

EMAiD | 2020
